

Communications and Partnership Engagement

The sustainable development of our services depends on the invaluable support we receive from various sectors of society, who work with us hand-in-hand to help disadvantaged groups by providing them with diverse and flexible services and support. We will continue to develop innovative projects and leverage our efforts in the spirit of “One Family • One for Many” to connect with different stakeholders. By collaborating with all internal and external parties, we can actively respond to the needs of our society.

Corporate Collaboration to Co-Create Good in the Community

For the first time, CFSC launched a new corporate partnership programme called “Co-Create for Good”, with the aim of providing an online platform to help companies transform their business capital into community investments, thereby driving the sustainable development of the community. Through the programme, corporate partners can collaborate with the Agency to co-create projects, covering core social values such as care for the community, health and well-being, social inclusion and environmental protection, thereby bringing positive and sustainable changes to the community.

Our vision is to establish a sustainable social-business cooperation ecosystem, create social value through strategic partnerships and share our success with the community.

Bringing Warmth to Grassroots Families on Festive Occasions

Dragon Boat Festival Charity Campaign

In order to bring warmth to grassroots families and make them feel that society cares about them during festive occasions, we organised a special Dragon Boat Festival Charity Campaign, during which companies and charities donated 1,700 lucky bags to low-income families, the elderly and people with disabilities through the Agency's service units. Some of the sponsoring companies also organised volunteer teams to help distribute the lucky bags and conduct door-to-door visits to ensure that people in need feel cared for by the society, thereby giving the Dragon Boat Festival a rejuvenated meaning. The festive glutinous rice dumplings given out during this event were provided by the Home Café – an establishment run by disabled students of the Agency, in an effort to support the employment of people with disabilities. All the students participating in the campaign gave their best efforts by packaging the festival glutinous rice dumplings diligently, while sending blessings and warmth to those in need.

Corporate volunteers actively visited our service users and presented them with festive lucky bags to celebrate the Dragon Boat Festival.

The festive glutinous rice dumplings were provided by the Home Café, which is run by the disabled service users of CFSC. All the participating service users put their best efforts into their work and pack the food diligently.

CFSC "Thinking of You" Charity Mooncake Sale 2023

To celebrate the Mid-Autumn Festival, we began our first collaboration with the local illustrator "Cafe de Bollo" and Kee Wah Bakery. We launched the Charity Mooncake Gift Box, with the theme of "Thinking of You" and a home-like design concept. After deducting the costs, the proceeds will support CFSC's services for low-income families, the elderly and people with disabilities. In addition to buying these special mooncake gift boxes for personal use or their families and friends, many also chose to donate the mooncakes to disadvantaged groups through our service units, bringing the recipients joy and happiness while giving extra meaning to the Mid-Autumn Festival.

We began our first collaboration with the local illustrator "Cafe de Bollo" and Kee Wah Bakery for our charity mooncake sale, with the theme of "Thinking of You".

To share the joy and happiness of the Mid-Autumn Festival, donors could choose to give away the mooncakes to disadvantaged groups through our service units.

Christmas Meal Box Fundraising Programme

Since the outbreak of the pandemic, we have been providing meal vouchers to people in need in Kwun Tong District, allowing them to enjoy hot meals through our "Meals at Kwun Tong" voucher fundraising programme. We rolled out the "Christmas Meal Box Fundraising Programme" last Christmas, providing two types of Christmas meal boxes for low-income families, elderly people who live alone or elderly couples, as well as people with disabilities through our service units, in hopes of sharing Christmas delicacies with them in celebration of this festive occasion.

We prepared some special Christmas meal boxes to share festive joy with those in need.

Chinese New Year Red Packet Donation Programme

The Chinese New Year is a festival for relatives and friends to gather together and share blessings. CFSC encouraged members of the community to extend this spirit to others and launched a “Chinese New Year Red Packet Donation Programme”. For every donation of HK\$128, the donor received a set of Chinese New Year “Fai Chun” and a leather red packet, which were jointly produced by the disabled students of our Tsui Lam Integrated Vocational Rehabilitation Service and volunteers from Family Energizer. The programme brought warmth and hope to those in need, while encouraging our students with disabilities to realise their personal potential.

Donors to the Chinese New Year Red Packet Donation Programme could receive a leather red packet handmade by our service users.

Awarding Volunteers in Recognition of Their Selfless Contributions

Companies received awards for their support and collaboration in helping disadvantaged groups.

In order to encourage all walks of life to participate in community services, the Agency organises a “Corporate Partner & Volunteer Recognition Ceremony” every year to celebrate all the participating companies, groups and individual volunteers for their selfless contributions during the past year. Thanks to their efforts and collaborations, the Agency has been able to provide a diversified range of services for the benefit of the community.

Due to the large number of award recipients, the “Corporate / Organisation Volunteer Recognition Ceremony” and the “Individual Volunteer Recognition Ceremony” were held across two days. Nearly 300 individual volunteers and 65 corporate partners and organisations received our awards. Their total number of volunteering hours reached 31,581 hours, with a total of 205,737 beneficiaries.

Businesses Join Forces to Help Disadvantaged Groups

CFSC actively works together with different corporations and organisations to prepare various diversified forms of collaborative solutions, such as service sponsorship programmes, event sponsorships and corporate volunteer activities, among others. Last year, more than 40 companies and their volunteers took part in the initiative and contributed money and their efforts to provide our service users with a variety of exploration and interaction opportunities, including outings and making handmade products. Through this interaction, corporations can develop a deeper understanding of the Agency’s services and help expand our service resources.

In addition, the Agency has received nearly 110,000 items donated by more than 70 corporate partners and organisations, including funfair tickets, festival foods, books, daily necessities, masks and rapid test kits, etc. These materials can help reduce the financial burden of our service users.

Secondary students from our low-income families received funding from the Rotary Club of Penha, Macao, to participate in a cultural exchange tour, during which they traveled to Macau and interacted with local students.

Children from our low-income families received books donated by the Hong Kong Association of Lady Horse Lovers.
