## Connecting Communities, Co-create For Good

With faith, courage, and perseverance, we continually explore and forge new paths.

Since 1954, Christian Family Service Centre (CFSC) has upheld a steadfast belief, keen insight, and an innovative spirit, actively developing a diverse range of professional services. It has gradually evolved into a comprehensive social service organisation encompassing multiple service areas. Throughout this long journey of growth, we are grateful for the wholehearted support and participation from all sectors of society, working hand in hand to forge new paths towards various goals.

This year, our theme is "Connecting Communities, Co-Create for Good", which informs the design of the 2024-2025 annual report cover. The design is community-centered, showcasing the pathways CFSC that has built to create a better living environment for diverse communities. Through interwoven contexts, it connects various sectors of society, consolidating resources and strength to jointly build a sustainable and brighter future.
